

Mahoning County, Ohio

Estates Decedent Index
1846 through 1900

By
William T. Powers
For
The Mahoning County Chapter of
The Ohio Genealogical Society

1994
Revised 2014

Preface

When Mr. Powers began his genealogical research on his family, he soon discovered that each new surname meant another trip to the courthouse just to see if they appeared in Probate Court records. The problem was compounded when he started doing research for others. To save time, and trips to town, he listed the decedent's names that appear in the volume. *Index to Wills and Estates: 1846 – 1946*. This book can be found in the Probate Department. It is an index to all the cases brought in the Probate Department in the first one hundred years of the county's existence.

It soon became apparent that the index was not complete. Names were missing or so badly misspelled they were impossible to recognize. After using this crude compilation for two years Mr. Powers decided to make a complete index. He went through the first twelve *Administration Dockets*, page by page, and abstracted the decedent's names.

Every effort has been made to ensure that this list is correct. However, the user must be aware, there are always problems in producing a work of this kind. Because of the condition of the *Administration Dockets*, including soiled pages, faded ink and poor handwriting, some names may be in error. We hope not.

One problem in interpretation was the letter "S". For instance using the name POWER as an example. If an 'S' is added to make POWERS, does this signify the possessive with no apostrophe, or is the apostrophe so far removed from the word that is mistaken for an in smudge? Is the "S" added improperly to make a plural, or should the name be POWERS? Also, the lower-case letters o and a are difficult to distinguish from each other. As always, the researchers must check every possible variant of the name they are working on and use their own best judgment.

J. W.

Using This Index

This index is presented in two sections. The first is in alphabetical order with each given name followed by a case number, or numbers. The second section is numerical order. This list makes it possible to 'pinpoint' a death date within a ten-year span. When the papers in each packet were filmed, only the first and last pages of the packet were numbered. This makes it difficult to find the number you are looking for. When you reach the place, on the film, where you think your case might appear, find the name on the case you are in and check the numerical list. Now you will know whether you must go forward or backward on the film to find your case. For instance if you are looking for an estate for Frederick T. AGUE – the alphabetical list shows his case number as 3245. After you have put the correct roll of microfilm on the machine, advance the film stopping where you think your case might be found. Check the number that appears on the case you are in. It might be SHALER, Jane S. check her name in the numerical list hers is case number 3248. This suggests you have gone too far on the film and must back track three cases to find Frederick T. AGUE.

Years	Cases
1846 - 1849	0001 – 0201
1850 – 1959	0202 – 0809
1860 – 1869	0810 – 1430
1870 – 1879	1431 – 2217
1880 – 1889	2218 – 3395
1890 – 1899	3396 – 6017
1900	6018 – 6038

These case numbers are the ones used on the microfilm in the Probate Department. So Look for these numbers when you are doing your research.

ANOTHNY

Amos 1557
Gideon 1399, 1424
Mary A. 2315, 2328

When a name is followed by more than one case number, it may mean there are two people with the same name. Perhaps a new executor/administrator refiled the same will, under a new case number. If the first executor/administrator resigned or died, and a new executor/administrator was named, the case usually had be filed again. Its wise to check the entries as two or more files, for the same individual, may have different information. One may contain only the will and finial distribution of the estate. Another file, for the same decedent, may list all the heirs, may have receipts, and / or the sale bill, etc. etc., but not contain the finial distribution.

Acknowledgements

This work would not have been possible without the help of Grant Brickley and his wife, Beverly. They spend over eighty hours in the “dungeon” under the Probate Court checking the names and case numbers against my original index. Grant entered the 6,038 names, with the case numbers, into the computer, sorted the list in to numerical order and printed it out. Using that print out I went thru the 12 Administration Dockets, again page by page, checking each entry against the corrected list.

When I was satisfied that abstract was as error free as possible, and Grant had made the necessary corrections, the discs were given to Jocelyn Wilms for the finial editing that resulted in this compilation.

I thank all three for their dedication to, and support of, this project.

William T. Powers
